

The world's premier airport exhibition

9th International Exhibition for Airport Equipment, Technology, Design & Services in China

4-6 SEPTEMBER 2024 - Beijing, CIEC

CATCH CHINA'S NEXT TAKE-OFF

www.interairportchina.com

Gather Industry Forces to Build The Future Airport

As a professional event based in China that focuses on airport and civil aviation industry, inter airport China has had eight successful editions in Beijing and one south show in Guangzhou. Over the past 19 years, the event has grown together with hundreds of companies and thousands of visitors, witnessing the rapid growth of airport construction work in China. It consistently injects vitality into the civil aviation industry in China thanks to its professional commitment and innovation.

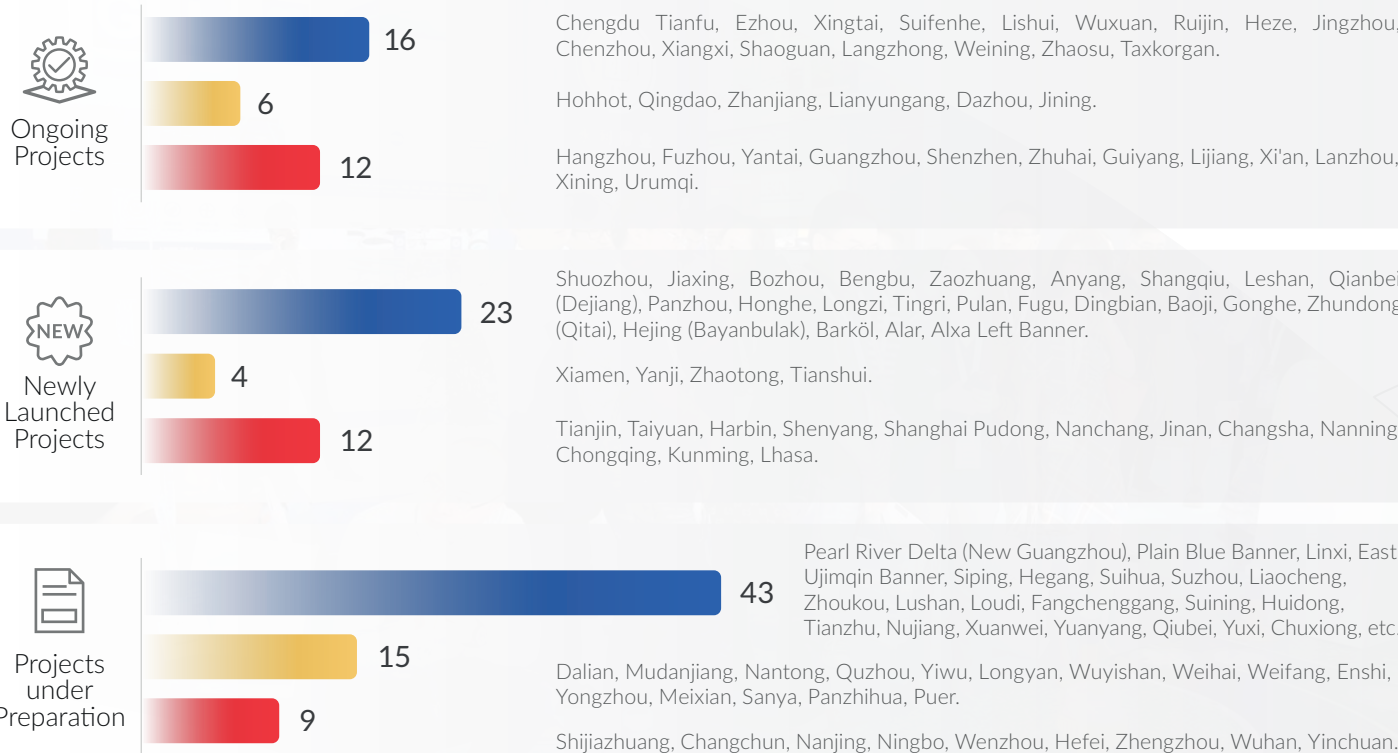

We have the common purpose – to meet the right people that can create better communication and result. inter airport China build face to face connections with the right people, gain key industry insight and of course, engage in unrivalled networking opportunities over the three days.

Joining us at inter airport China in 2024, to meet and network with 4,000+ industry professionals, see exciting projects during China's "14th Five-Year Plan".

Fast-growing Chinese Markets

Key Airport Construction Projects During the "14th Five-Year Plan" Period

Fresh New Relocate Reconstruct * Data source: "The 14th Five-Year Plan for Civil Aviation Development" CAAC, 24 DECEMBER, 2021

Exhibitor Profile

TERMINAL

Covers all solutions and equipment for terminal operations, infrastructure and technical installations.

DATA

Covers all airport IT systems, data management solutions as well as connected systems and IT processes to handle passengers, operations as well as air traffic.

RAMP

Covers ground handling and ground support equipment, as well as runway construction and installations.

DESIGN

Interior specifications and furnishings, architectural design, equipment and planning stage of the airport.

inter airport China Buyer's Demands (Partial)

Equipment

- Central Air Conditioners
- Shoe Scanner
- Unmanned Vehicles
- New Energy Vehicles
- Cable Fault Finder
- Cargo Stacker
- Pavement Cleaning Vehicle
- Crack Filling Machine
- Gutter Mowing/Dredging Equipment
- Large Drainage Vehicle
- Multi-function Vehicle with Lighting
- Multi-function Signage
- Portable Baggage Screening Machine
- Garbage Removal Equipment at the Terminal
- Locators for Low Energy Devices
- Power Supply and Distribution Equipment
- Innovative Facilities and Equipment for the Portable Security Check Chain in Short-distance Transfer
- Energy Storage Equipment (Alternate Facilities for APU at the Remote Boarding Gate, Bridge-mounted Power Supply, Bridge-mounted Air Conditioners and Charging Piles)
- Rail Transit Equipment for Small- and Medium-sized Baggage
- Automatic Disinfection Devices for Shuttle Buses
- Other New Equipment for COVID-19 Prevention

Technology

- IoT
- Non-inductive Security Check Based on Biometrics
- AI-based Automatic Image Recognition Using X-ray
- Application of BIM
- Automatic Cargo Volume Measurement
- Targeted Cargo Positioning
- Automatic Docking (Boarding Bridge)
- Technologies Related to the Baggage System
- Equipment or Technologies for Monitoring in the Peripheral Low-voltage Room

Systems

- Digital Air Cargo
- Bird Identification System
- Smart Route Planning System
- Special Vehicle Sharing System
- Voltage Sag Prevention
- Application of CT in Cargo Screening
- Underbody Imaging Inspection System
- Runway Incursion Prewarning System/Alarm System
- Video Analysis and Tracking System Based on Biometrics
- Patrol on the Periphery of the Reservoir Area
- Smart Supporting Equipment/System for Pavement Inspection
- Equipment Related to Cloud-based Smart Power System Operations Platform
- Integrated Asset Operations Management System
- Smart Supervision System for Construction
- Smart Operations Management in Water and Power Supply and Air-conditioning
- Smart Energy Management Platform Based on Big Data
- Smart Statistical Analysis System for MRT
- Passenger Flow at the Airport Entry Without Gates
- Passenger Queuing Tracking/Measurement System and Safety Command System at Security Check Points Based on Infrared Sensing and the Passenger Logistics Model
- Quality Control System and Data Visualization Platform for Security Check Based on Smart Image Recognition and Monitoring Using AI

Visitor Fact and Figures in inter airport China | South, Guangzhou, 2023

Why visitors attend inter airport China

Gather industry knowledge and learnings through talks or presentations

Visit different exhibitor stands to see what is new and interesting in the industry

Meeting a few specific people or companies that I want to do business with

Meeting up with existing contacts in order to socialise

Meet up with existing suppliers or partners in order to review or discuss business

Networking to meet new people in order to create new opportunities

Key Delegations inter airport China | South, 2023

- CAAC Central and Southern Regional Administration
- Guangdong Airport Authority
- Guangzhou Baiyun Intl. Airport
- Foshan Airport
- Qingdao Intl. Airport Group
- Zhuhai Airport
- Macau Intl. Airport Co., Ltd.
- Hubei Logistic Airport Co., Ltd.
- Shenzhen Airport Group
- Shanghai Airport (Group) Co., Ltd.
- Zhejiang Province Airport Group
- Inner Mongolia Civil Aviation Airport Group
- Beijing Daxing International Airport
- Yunnan Airport
- Sanyan Fenghuang Intl. Airport
- Vnukovo Andrei Tupolev Intl. Airport
- Manchester Airports Group
- Maldives Airports Company Limited
- China Southern
- China Eastern
- Xiamen Air
- Spring Airline
- Shandong Airlined
- Air Travel
- SF Airlines
- SAUDIA
- GDADRI

"Congratulations on the convention and conclusion of inter airport China | South. I am very grateful to RX staff for their meticulous preparation and warm reception. Macau International Airport has benefited enormously from this exchange. Thank you again for your hard work and we are looking forward to more communication and cooperation in the future!"

Macau International Airport

exhibitors are satisfied that they build overall brand perception / awareness.

exhibitors agree inter airport China | South provide the right airport audience.

"China is undoubtedly the new frontier for aviation. If you look at growth worldwide, China is growing at the fastest pace. This is why China is building so many new airports - to cater to growing demand. Our Chinese counterparts are constantly innovating in their projects, becoming models for others. Listening to their sharing onsite excites and thrills me."

Roberto Castiglioni, Director, RMR

inter airport China Event matrix

inter airport China

Biennial B2B trade show that gather thousands of Chinese professionals

inter airport SELECT

Fruitful marketing opportunity to reach your potential buyers

inter airport Exchange

As a key part of inter airport China, inter airport Exchange conference aims to build a theme-based interactive sharing platform for key opinion leaders and industry professionals to exchange and discuss technological innovation, structural adjustment, industrial upgrading and future development in key areas of the airport industry.

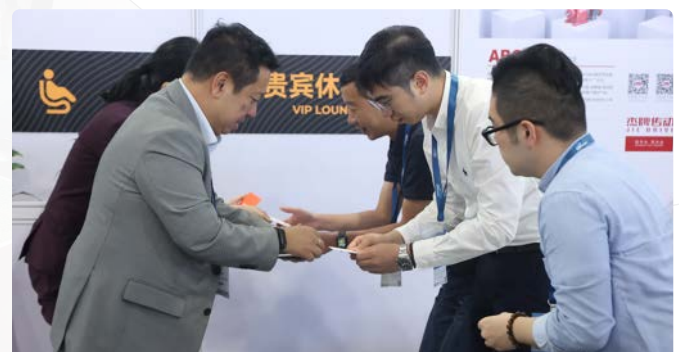

At the 3rd inter airport Exchange, held concurrently with the exhibition, 51 experts, both domestic and foreign, as well as senior executives, delivered speeches. Integration of the conference with the exhibition promoted industrial development and drove industry demand through technological exchange. The event showcased and explored technological innovations, policy insights, and prospects for the domestic and international airport industry from multiple angles.

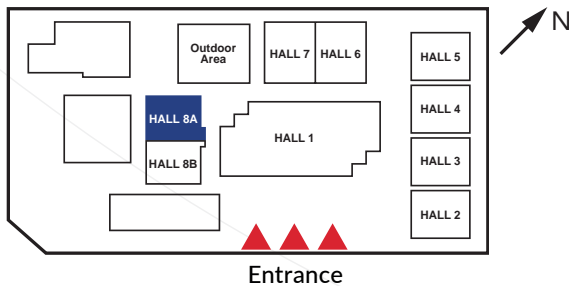

"inter airport China | South is not only an exhibition, but an event with functional areas and supporting activities, combining current hot topics and popular forms to increase the engagement of attendees, enhance popularity, and create an atmosphere beneficial to communication. This is the uniqueness of inter airport China."

Chris Zang, Project Director, RX China

Go Beijing

China International Exhibition Center (Chaoyang Hall) is located in the bustling commercial center of North Third Ring Road East, Chaoyang District, Beijing. It has a wide range of services, popularity, and obvious location advantages. It is convenient for subway, bus and taxi.

An express between Beijing Capital International Airport and Metro Sanyuanqiao station. And there is Daxing International Airport line to Metro Sanyuanqiao station.
